In a nation where every single day more than 90 people die of a gun shot, carrying a weapon in public should not be a right but rather a responsibility that requires immediate permit proof when stopped and or questioned by the police.

Let us not continually be blindsided by those who for almost fifty years have attempted to stall or go backwards on gun safety regulations. Even in the 19th century gun control laws could be found everywhere. A sign in Dodge City read, "The Carrying of Fire Arms Strictly Forbidden".

I urge the Connecticut Legislature to pass HB 5408. There is nothing unconstitutional about it.

Thank you,
